WORK EXPERIENCE

Maratech NMR Solution — **Cambridge, MA**
Business Analyst Intern — 05/2024 - 08/2024
- Delivered 50+ research materials to clients and partners, supporting efficient research operations
- Coordinated daily logistics for lab material transfers, improving on-time delivery by 20%
- Managed online and in-person client marketing efforts, boosting partner engagement

Flask Scientific — **Cambridge, MA**
Summer Intern — 05/2023 - 08/2023
- Led online marketing setup, increasing brand visibility across digital platforms by 30%
- Produced pricing reports based on competitor analysis that directly informed a revised pricing model

ACADEMIC PROJECTS

Brandeis University — **Waltham, MA**
Boston Celtics Real-Time Win Probability Research — 05/2026 - Present
- Built a real-time Boston Celtics win probability model in Python using ten seasons of NBA play-by-play data and game-state features such as score margin, time remaining, and possession
- Trained and validated an XGBoost model, testing it on held-out seasons against a baseline model
- Created an interactive analytics interface that shows win probability, lineup and player impact, game situations, and what-if scenarios; now developing the research toward publication with a faculty advisor
